About us

Kerala Blind Association an NGO working for the welfare of blinds since 2007. So far with the association's interference so many issues like social, educational, etc. are being lighted before the government and society and solved to a certain extent. The object of the association is to work for the upliftment of entire humanity especially the disabled.

KBA is not under any type of caste, creed, and political bias and is founded on the love for humanity. Association has given the 80 G and 12AA certificates from the concerned departments for Income tax exemption and working as a collective entity of individuals, who wishes to do good.

Association so far...

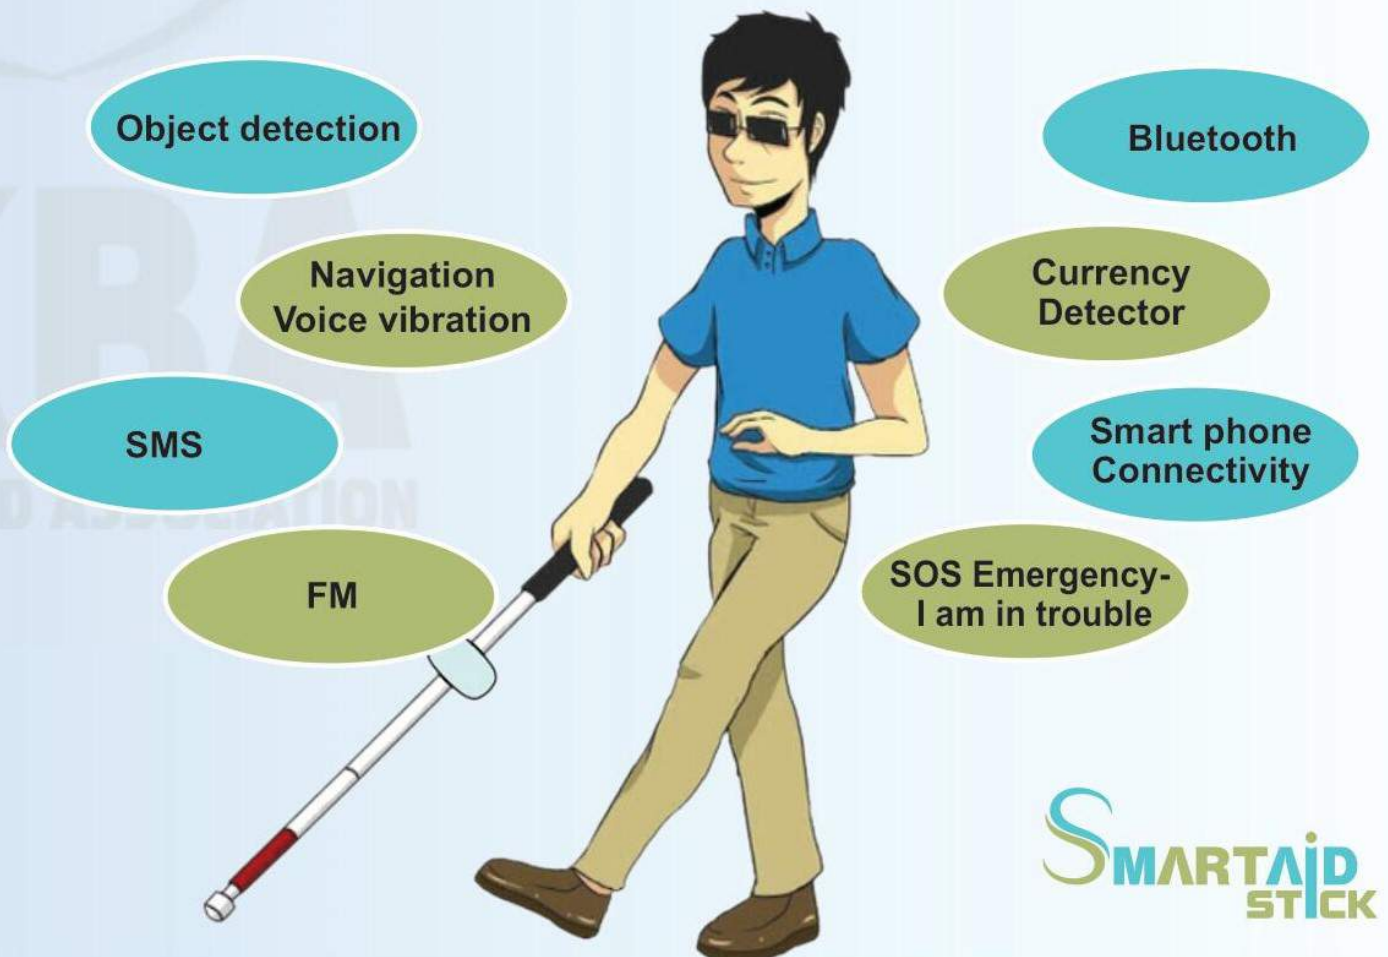

With the help of kind-hearted so far the association has performed a lot of activity for the social good since 2007.

For more details please visit our web site www.keralablindassociation.in

A Divine Touch for the Blinds

The prime problem faced by a blind is the security while they are walking alone. Presently they are using white cane for their walking purpose. Here comes the significance of modern technology. Hence KBA responds to their long-cherished dream of a device that recognizes the obstacle along their path in advance and guides them to navigate with the help of modern technology. SMART AID STICK – a device that can be used within their habits. The production cost of this device is around Rs.8000/- and is manufactured by SPACE WOX LIMITED.

Please contribute to the production and distribution of this device among blinds free.
